 Unbeatable Customer Service...Period

Scanning concrete or non-metallic structures and materials demands a comprehensive tool. Mala's CX systems are ideal for imaging rebar, post tension cable, and metallic/non-metallic conduits. The only system in the world integrating a 1.6GHz transducer and an electromagnetic sensor, giving the operator the ability to detect live conduit without sacrificing resolution.

**MOST INNOVATIVE PRODUCTS**

time needed to execute bolting and tensioning tasks. The pump provides constant horsepower output and maximizes motor torque and hydraulic fluid flow compared with 2- or 3-stage pumps. Power Team. 815-874-5556. [www.powerteam.com](http://www.powerteam.com). [World of Concrete Booth N313.]

**Blanket Roller**

The BlanketRoller simplifies dealing with curing blankets. Simply pull the blanket between the two tubes, turn the crank handle approximately six times, and the curing blanket is rolled up, ready to secure and slide off. BlanketRoller/Tradesman Tools. 320-963-0911.

[World of Concrete Booth S22011.]

**Rotary Hammer Drill**

The TE 80 ATC-AVR Combihammer features Active Torque Control and Active Vibration Reduction to protect both the user and the tool. Powered by a 1700W motor, it provides high-quality drilling and chiseling performance. It comes complete with a built-in theft protection system.

Hilti Inc. 800-879-6000. [www.us.hilti.com](http://www.us.hilti.com).
